Take charge of your collections with JSTOR Forum

Edward Brown. Durch Niederland, Teutschland, Hungarn, Servien, Bulgarien, Macedonien, Thessalien, Oesterreich, Steirmark, Kärnthen, Carniolen, Friaul, & c. gethane gantz sonderbare Reisen. Illustrated book. 1686. Part of The Virginia Fox Stern Center for the History of the Book in the Renaissance

Institutions like yours have invested in digitizing their collections, but solutions for managing this content tend to be expensive, training-intensive, and siloed from your staff's regular workflows. JSTOR Forum can help.

Manage your collections with JSTOR Forum, a web-based tool that allows you to catalog, edit metadata, and publish to JSTOR and other sites.

Featuring an array of cataloging and metadata management tools, a flexible and intuitive publishing system, and support for multiple users and media formats, Forum allows you to build, manage, and publish your collections with ease.

Manage your collections easily and affordably

Japanese. Yuzo Kitagawa Bookplate. 1967. Part of Japanese Bookplate Collection

“Forum affords us the flexibility we need to deliver our collections and projects to both our institutional affiliates and a wider community audience. By building institutional and community relationships, we have been able to increase our amount of digitized content while not straining staff resources by sharing tasks across campus entities.”

Lael Ensor-Bennett
Curator, Visual Resources Collection, Johns Hopkins University

Take charge of your collections effectively

Forum enables your staff to access, catalog, and annotate assets in real time from anywhere, which facilitates collaboration and improves the accessibility of your digital collections. With an annual fee that includes enterprise access for unlimited users, Forum can readily expand across departments and projects.

And with cloud-based architecture, demands on technical and local staff are minimal — no locally installed software, no servers to manage, and no responsibilities for updates.

Publish with ease

Make your collections accessible to the audiences you want to reach and achieve the impact you seek. JSTOR Forum gives you the power to share your digital collections on JSTOR — at no extra cost — or on your own Omeka sites.

Forum also provides you with the data you need to assess the impact of making your collections available on JSTOR, as well as reports to effectively manage and improve your projects and work.

Customize to your requirements

Tailor our customizable metadata schemas to suit your project types, or use standard templates out of the box. Cataloging fields are easy to add, edit, and delete to fit collection content and goals.

Customize roles and access levels for users of all skill levels for secure and effective workflows.

JSTOR Forum is an ITHAKA infrastructure service

Through decades of offering trusted non-profit resources like JSTOR and Portico, ITHAKA has built a framework that enables you to share, preserve, and manage your collections. Our services increase your collections' reach and usefulness, secure access for generations to come, and further our shared mission of improving access to knowledge worldwide. We will continue to partner with our community to offer a broad spectrum of services in support of this work.
